## AGED FISHERMAN'S WEIR ORDERED OUT BY MAJOR TAYLOR

Federal Officer Would Annul Permit Granted on State Authority 35 Years Ago.

Game Commissioner Crampton Instructs Belser Not to Need Order and Will See Major Taylor About it—Commission Licenses Weir Every Year.

New Haven, June 4.—Joseph Belser, a well known resident of Morris Cove, and who lives at 309 Townsend avenue yesterday received a letter from Major Harry Taylor of the United States engineers' office at New London, asking him to remove a fish trap or weir belonging to Mr. Belser, off Fort Hale. The letter reads as follows:

War Department,  
United States Engineer's Office,  
New London, Conn.

Mr. Joseph Belser,  
309 Townsend Ave.,  
New Haven, Conn.

Dear Sir: A complaint has been received in regard to a fish trap or weir which is maintained in Morris Cove, New Haven harbor, and upon investigation it appears that the trap is owned and maintained by you.

I beg to call your attention to the fact that the maintenance of this trap is illegal, and that you are subject to prosecution for maintaining the same, and you are hereby notified that the trap must be removed without delay. Your attention is invited to the enclosed extract of the law which is applicable to this case.

Very respectfully,  
HARRY TAYLOR,  
Major Corps of Engineers.

June 2, 1909.  
The section of the law referred to says that the building of any jetty, breakwater, weir, bulkhead, etc., outside the established harbor lines except on plans recommended by the chief of the engineers and authorized by the secretary of war is prohibited. A fine anywhere from \$500 to \$2,500 and imprisonment of one year or both are provided for in another section.

Mr. Belser was seen last night and he said that the fish net off the Cove had been maintained for a period of 50 years. He is seventy-four years old and during his long and active life at the shore he never had heard of a complaint against the trap. "While it has been maintained for 50 years," said Mr. Belser, "I have fished it for 35 of those years and I never heard a word from it. I didn't know I had an enemy alive, but I guess somebody is getting in his work against me."

Mr. Belser said that he had explained the situation to Game Commissioner Crampton, and that Mr. Crampton had told him not to worry about the matter. Mr. Crampton is going to Norwich to-day and will stop in New London to see Major Taylor. The commission licenses Mr. Belser's weir every year.

## Steel Trust Tackles The Booze Question

Pittsburg, June 4.—The United States Steel Corporation has decided to tackle the booze question. Notices have been posted at all plants of the corporation that workmen will not be permitted to leave the mills from the time they enter until their hours of work are finished, except workmen living near and who have been in the habit of going home for their meals.

Aside from bad work by those who have been in the habit of leaving work several times a day to drink, the loss of time has been great.

## DIPLOMATS SIZE UP GERMAN- RUSSIAN COMBINATION

(Special from United Press.)

London, June 4.—German support of Russia in the latter's land grabbing scheme in Persia in return for a Russian guarantee of a German outlet on the Persian government is declared by Foreign Office attaches to-day to be the basis of the entente with which the coming visit of the Kaiser to the Czar is expected to bring forth.

England does not dare to breathe her suspicions of fickly but there is an unmistakable proportion in diplomatic circles that when the two rulers meet on June 17 they will enter into some agreement. If English diplomats have sized up the situation correctly Germany and Russia are planning what practically amounts to a combination against England.
